

## **Renewable Energy Approval (REA) Fees & Refunds**

### **REA Fees**

The Renewable Energy Approval (REA) fee is an application fee to the Ministry of the Environment to review and make a decision on a submission for a REA as outlined in the Renewable Energy Approval regulation, O. Reg. 359/09.

### **REA Refunds**

A Renewable Energy Approval applicant would be eligible to receive a partial refund if the Renewable Energy Approval application is not formally accepted for a technical review. If the application is returned to the applicant because it is considered incomplete, the application will be returned with a refund based on the Renewable Energy Approval class.

Once a Renewable Energy Approval application is formally accepted for a technical review no refund will be offered, including any withdrawn applications.
